Parque de las Ciencias is an interactive museum of over 70.000 m². Located a few short minutes on foot from the historic city centre of Granada, it has one of the most varied offers for cultural and scientific leisure in Europe.

Macroscopio

Pavilion for Journey into the Human Body. A sojourn from the origin of life up to the human anatomy..

Al-Andalus Science Pavilion. The scientific and technological legacy of al-Andalus is put within your reach.

The Prevention Culture Pavilion. To improve the perception of risks in the workplace and in daily life.

The Techno-Forum Pavilion. A space for new technologies, innovation and art.

The Museum Attic's Exploration Hall. Bring science closer to the smallest visitors through discovery and exploration.

Temporary Exhibition Pavilion. Large exhibition productions from Spain and around the world.

Foucault's Pendulum Building

Discover the fragile balance of our planet, multiply your reflection inside the Tunnel of Infinity and trap your shadow in the Biosphere, Perception and Eureka exhibition halls. And for the youngest guests, there is the Exploration Hall. Planetarium. Enjoy an exciting journey through the Universe with a projection of over 7.000 stars.

Natural Spaces Pavilion

All about the natural spaces of Andalusia, as well as a focus on the environment and its conservation.

Outdoors

The museum opens itself to the great outdoors with its Botanical Routes, Astronomy Garden, Astronomical Observatory, Mental Gymnastics Marquee, dynamic sculptures, Energies Zone, exhibitions on mechanics and perception and other open air games.

Observation Tower. A viewpoint over the City of Granada where you can experience science and technology.

Tropical Butterfly Garden. experience science and technology.

Tropical Butterfly Garden. Observe the butterfly life cycle. Over 20 different tropical species.

The Flying Predators Workshop. Get to know the ecology and biology of predator birds.

Temporary Exhibitions

Over 5.000 m² distributed into exhibition halls of different areas.
